

Errata to Figure 6: Geographic Distribution of Nursing Positions

Errors in the analysis of distributions of advanced practice registered nurses and registered nurses working in Massachusetts were discovered post-publication. This document contains the correct distribution numbers and percentages. Corrections can be found in bold.

GEOGRAPHIC DISTRIBUTION OF NURSING POSITIONS

Of the **67,798** RNs and APRNs that report currently working in Massachusetts, **17,937 (33.8%)** reported that their primary place of employment was in the Boston Region (*Figure 6*).
